

MARKSMAN technology sheet

Why choosing MARKSMAN makes sense

MARKSMAN® has a well-earned reputation for meeting growers' needs as the best offence in broadleaf weed control. As either a 1-pass, tank-mix partner or as a 2-pass solution of INTEGRITY® followed by MARKSMAN, it gives the flexibility needed to get the most out of your corn crop without limiting options in following years. And it protects your investment by delivering broad spectrum residual and knockdown control of tough broadleaf weeds.

How MARKSMAN works

MARKSMAN delivers unsurpassed season-long control of a broad range of key broadleaf weeds, including tough annuals and deep-rooted perennials. And its broad spectrum residual control protects your yield, controlling weeds that often escape the sights of other herbicides. MARKSMAN has many tank-mixing options, including glyphosate, FRONTIER® MAX and PROWL® H₂O. For a simple, one-pass weed control solution that's right for your farm.

What crops can follow MARKSMAN in the rotation

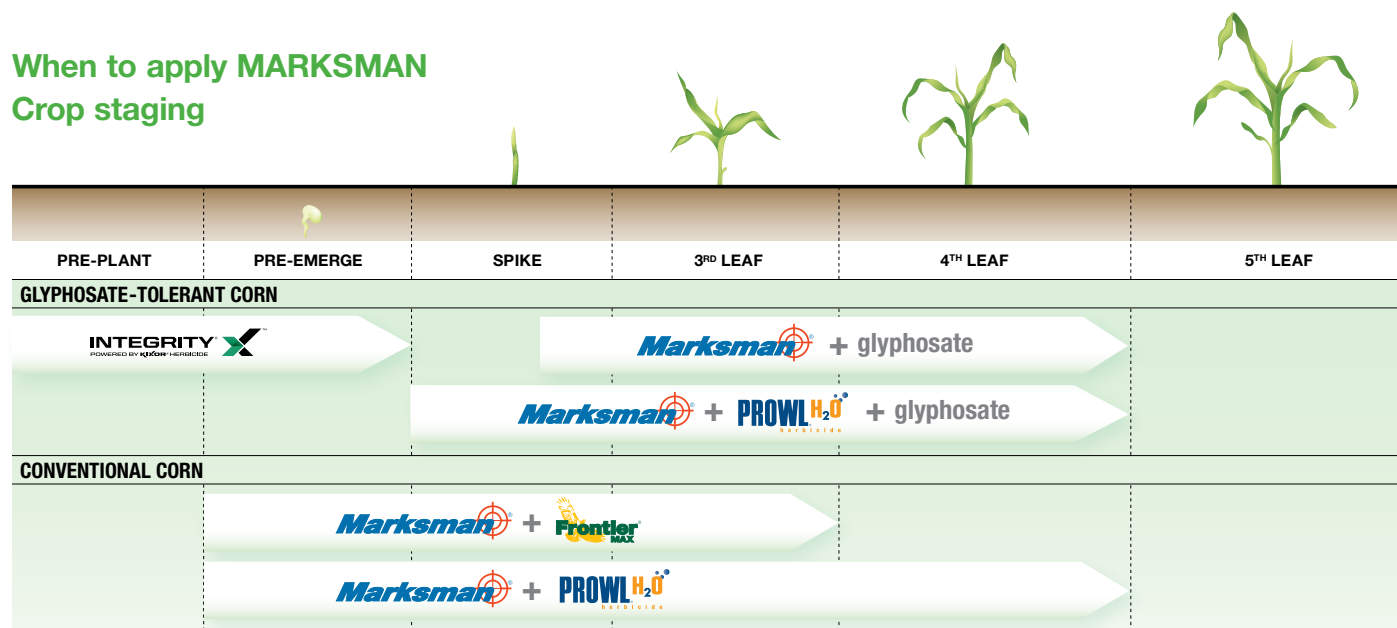

Every crop. MARKSMAN does not limit your options like other herbicides can.

What MARKSMAN controls

Perennials	Canada thistle	Sow-thistle
	Field bindweed	
Annuals	Cleavers	Lady's thumb
	Common cocklebur	Lamb's quarters
	Common ragweed	Redroot pigweed
	Common waterhemp	Russian pigweed
	Corn spurry	Tartary buckwheat
	Cow cockle	Tumble mustard
	False ragweed	Velvetleaf
	Giant ragweed	Volunteer adzuki beans
	Green smartweed	Wild buckwheat
	Hare's-ear mustard	Wild mustard
	Indian mustard	Wormseed mustard

When to apply MARKSMAN Crop staging

Weed staging

Grassy weeds	Pre-emergence to 2-leaf stage
Broadleaf weeds	Pre-emergence to 5-leaf stage

How much to apply

Glyphosate-tolerant corn

INTEGRITY followed by MARKSMAN + glyphosate*	0.3 - 0.45 L/ac (0.75 - 1.1 L/ha) 1.0 L/ac (2.5 L/ha)
MARKSMAN + PROWL H ₂ O + glyphosate*	1.0 L/ac (2.5 L/ha) + 0.89 L/ac (2.2 L/ha)

* Please refer to glyphosate label for application rates

Conventional corn

MARKSMAN + FRONTIER MAX	1.5 - 1.8 L/ac (3.7 - 4.5 L/ha) + 0.3 - 0.4 L/ac (0.75 - 0.96 L/ha)
MARKSMAN + PROWL H ₂ O	1.5 - 1.8 L/ac (3.7 - 4.5 L/ha) + 1.5 L/ac (3.7 L/ha)
