

BASF Crop Protection Product Storage Guidelines For Row Crops - EAST 2024

Requires Heated Storage

Herbicides	Fungicides	Seed Treatments
Armezon®	Caramba®	Insure® Cereal FX4
Armezon PRO	Cotegra®	ILEVO®
Basagran® Forte	Headline® AMP	Relenya®
Clean Sweep®	Priaxor®	Stamina®
Conquest® LQ	Sphaerex®	Teraxxa® F4
Eragon® LQ	Twinline®	
Eragon Plus	Veltyma®	Adjuvant
Liberty® 200 SN	Veltyma DLX	Merge®
Prowl® H2O		
Pursuit®		
Zidua® SC		

The products listed above need to be protected from freezing. Heated storage and handling requires storing the product in a cool, dry, ventilated area. They should be separated from feed or foodstuffs, and **temperature should be maintained generally between 5°C to 20°C**. For individual products, please call your BASF **AgSolutions®** Retail Representative or **AgSolutions** Customer Care for more specific storage requirements.

Always read and follow label directions.

AgSolutions, ARMEZON, ASSIST, BASAGRAN, CARAMBA, CLEAN SWEEP, CONQUEST, COTEGRA, DISTINCT, ENGENIA, ERAGON, FRONTIER, HEADLINE, ILEVO, INSURE, INTEGRITY, LANCE, LIBERTY, MARKSMAN, MERGE, OPTILL, POAST, PRIAXOR, PROWL, PURSUIT, RELENYA, SEFINA, SPHAEREX, STAMINA, TERAXXA, TWINLINE, VELTYMA and ZIDUA are registered trademarks of BASF; all used under license by BASF Canada Inc. INSURE CEREAL FX4, RELENYA and/or TERAXXA F4 seed treatments, and CARAMBA, COTEGRA, HEADLINE, LANCE, PRIAXOR, SPHAEREX, TWINLINE, VELTYMA and/or VELTYMA DLX fungicides should be used in a preventative disease control program. © 2024 BASF Canada Inc.

SELECT is a registered trade-mark of Arysta LifeScience Group Company.

Does NOT Require Heated Storage

Herbicides		Fungicide
Basagran	Marksmann®	Lance®
Distinct®	Optill®	
Engenia®	Poast® Ultra	Insecticide
Frontier® Max	Select®	Sefina®
Integrity®		
		Adjuvant
		Assist®

Liquid products don't always work as intended if they freeze. For some liquid products, it will be required to thaw them out entirely and thoroughly mix or shake them. This does not, however, guarantee proper functionality, performance or efficacy of the product, even if they do not indicate heated storage on the MSDS or product label. If you have access to heated storage, it's best to avoid freezing all remaining inventory of liquid crop protection products when possible.
