

# Armezon®

Herbicide

SUPPORTED BY THE

**ADVANCED WEED CONTROL**

PROGRAM

**Your ideal tank-mix partner for post-emergent weed control in glyphosate-tolerant corn.**

- Wide application window from 1 to 7 leaf stage
- Innovative Group 27 chemistry for control of weeds resistant to Group 2, glyphosate and triazine

## Active ingredient

Topramezone – Group 27

## Formulation

Liquid suspension

## One case contains

4 x 600 ml jugs

## Storage

Requires heated storage.

## Weed control with Armezon® herbicide

Armezon + glyphosate

Source: BASF Small Plot Trials, Winkler, MB, 2019

## Crops

Field, seed, sweet and glyphosate-tolerant corn

Flax

## Staging

1 to 7 leaf

5 to 10 cm

## Weeds controlled<sup>1</sup>

### Broadleaves

Chickweed<sup>2</sup>

Common ragweed

Kochia<sup>3</sup>

(less than 10 cm height)

Lamb's quarters<sup>2</sup>

Redroot pigweed

Volunteer canola (all types)<sup>4</sup>

(1 to 6 leaf)

Wild mustard

### Grasses

1 to 4 leaf

Barnyard grass<sup>2</sup>

Foxtail (green, yellow)<sup>2</sup>

<sup>1</sup> For use in corn, Armezon must be applied as a tank mixture. See Armezon label for tank-mix partners.

<sup>2</sup> Suppression.

<sup>3</sup> All types, including glyphosate-resistant biotypes. Apply when kochia is less than 10 cm.

<sup>4</sup> Including glyphosate-tolerant biotypes.

**■ BASF**

We create chemistry

### Application rates

**One case of of Armezon will treat 160 acres.**

Glyphosate-tolerant corn	Armezon <sup>5</sup>	15 ml/ac (37 ml/ha)
	Glyphosate <sup>6,7</sup>	
Seed, sweet corn	Armezon	15 ml/ac (37 ml/ha)
	Atrazine <sup>6</sup>	420 ml/ac (500 g ai/ha)
	Assist® adjuvant <sup>6</sup>	1.25% v/v (12.5 L per 1000 L spray solution)
	28% UAN <sup>6</sup>	1.25% v/v (12.5 L per 1000 L spray solution)
Field corn	Armezon	15 ml/ac (37 ml/ha)
	Atrazine <sup>6</sup>	420 ml/ac (500 g ai/ha)
	Merge® adjuvant <sup>6</sup>	0.5% v/v (5 L per 1000 L spray solution)
Flax	Armezon <sup>7,8</sup>	15 ml/ac (37 ml/ha)
	Merge <sup>6,9</sup>	0.5% v/v (5 L per 1000 L spray solution)

### Water volume

Ground application only 40 to 80 L/ac (10 to 20 gal/ac)

<sup>5</sup> For control of secondary flushes of volunteer canola, a second application of Armezon at 15 ml/ac (37 ml/ha) may be applied, for a total of 30 ml/ac (74 ml/ha) on glyphosate-tolerant corn before the 7 leaf stage.

<sup>6</sup> Atrazine, glyphosate, Assist, 28% UAN and Merge are sold separately.

<sup>7</sup> Refer to Armezon label for rates and weeds controlled.

<sup>8</sup> DO NOT apply Armezon to flax in combination with any other pesticide or injury may result.

<sup>9</sup> In place of Merge, Assist plus UAN can be added together as tank-mix partners, each at a rate of 1.25% v/v (12.5 L per 1000 L spray solution).

### Mixing order

1. Fill sprayer 1/2 full with clean water and agitate.
2. Add dry tank-mix partners into the spray tank and agitate.
3. Add Armezon and thoroughly mix.
4. After the Armezon has visibly dispersed, add any liquid herbicide tank-mix partners.
5. Add either Merge to the spray tank or Assist followed by liquid fertilizer (28% UAN) if required.
6. While agitating, fill the remainder of the tank with water up to the proper level.

### Application tips

**Rainfastness** – Limited by glyphosate formulation.

Follow the glyphosate manufacturer's recommendation for rainfast guidelines.

Denser weed infestation requires the use of higher water volumes.

### Pre-harvest interval

45 days after application for corn harvest (silage, fodder or grain).

45 days after application for flax harvest.

### Follow crops<sup>10, 11</sup>

#### 4 months after application

Winter wheat

#### 1 year after application

Alfalfa	Lentils (incl. <b>Clearfield</b> lentils)	Potatoes
Canola (incl. <b>Clearfield</b> ® canola)	Navy beans	Soybeans
Field corn	Peas	Spring wheat

<sup>10</sup> Armezon is used in a tank mix; refer to tank-mix partner's label for additional follow-crop restrictions.

<sup>11</sup> If the higher rate of 74 ml/ha is used, fields can only be seeded to winter wheat 4 months after application and spring wheat, field corn and canola the following year.
