

# Forum fungicide

## technology sheet

potatoes

Excellent control of late blight in potatoes, both in the field and into storage.

- Highly systemic tank-mix partner for control of late blight in potatoes
- Antisporulant activity controls spores and stops the spread of disease
- Easy-to-use liquid formulation

### Active ingredient

Dimethomorph – Group 40

### Formulation

Flowable concentrate

### One case contains

2 x 4.5 L jugs

### Storage

Store in cool, dry, ventilated area away from food and animal feed.

### Crop

Potatoes

### Timing

5 to 10 day interval

During periods of rapid growth or high disease pressure, use a shorter interval.

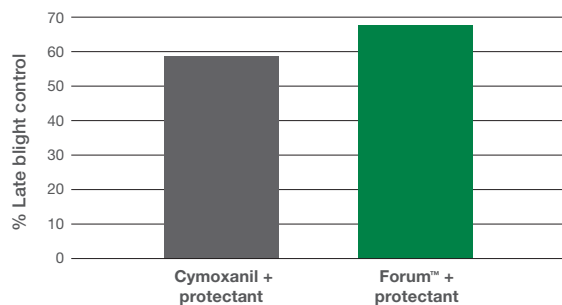

### Diseases controlled

Late blight (*Phytophthora infestans*)

Tuber blight in storage<sup>1</sup> (*Phytophthora infestans*)

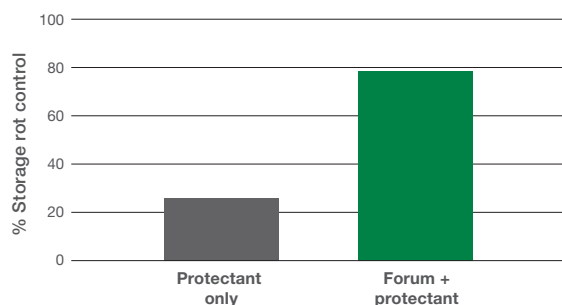

<sup>1</sup> Suppression only.

Curative late blight control

Average of 7 trials.  
Source: BASF

Storage rot control

Forum applied pre-harvest.  
Average of 7 trials with ratings taken 1 to 4 months after harvest.  
Source: BASF

## Application rates

**One jug of Forum treats 10 ha (25 acres).**

Potatoes 450 mL/ha (182 mL/ac)

---

## Mixing order

1. Ensure the spray tank is clean before use.
  2. Fill the tank 1/2 full of water and start agitation.
  3. Add the required amount of Forum fungicide to the tank while agitating.
  4. Continue agitation while filling the remainder of the spray tank.
  5. After use, clean the spray tank according to label precautions.
- 

## Application tips

**Rainfastness** – 2 hours.

**Restricted entry interval** – 12 hours.

**Resistance management** – In order to reduce the risk of developing fungicide resistance, Forum fungicide must be used in a tank mix with other fungicides effective against late blight.

---

## Pre-harvest interval

4 days for potatoes.

---

## Tank mixes

**Fungicides** – Polyram<sup>®</sup> DF, Bravo<sup>®</sup>, Dithane<sup>®</sup> DG Rainshield<sup>®</sup>

Always apply Forum as a tank mix with a protectant/contact fungicide such as Polyram DF or Bravo to protect against early blight and for resistance management.

Contact **AgSolutions**<sup>®</sup> Customer Care or your BASF Sales Representative for additional information on supported tank mixes.
