INVIGOR HYBRID CANOLA InVigor Health L359HPC

A hybrid with healthy yields.

A new 300 series InVigor® canola hybrid that offers an enhanced oil profile to meet the health and functionality requirements of today's consumer. InVigor L359HPC offers growers great standability and comes with first-generation clubroot resistance¹ and our patented Pod Shatter Reduction technology.

	Yield	106.9% of the checks (InVigor L255PC and Pioneer® 45H33) in 2021 BASF internal trials 102.3% of InVigor L258HPC (n=11, 2021)
	Traits	Patented Pod Shatter Reduction technology First-generation clubroot resistance Specialty oil
	Growing zones	Mid to long
	Standability	Very strong
	Maturity	1.5 days later than the average of the checks
	Blackleg	R – Blackleg resistant

Please note: Maturity and standability are based on performance ratings and data compiled from several InVigor internal trials over multiple years. Results may vary on your farm due to environmental factors and preferred management practices.

¹ To predominant clubroot pathotypes identified in Canada at the time of their registration.

Always read and follow label directions.
