

Even stronger broad-spectrum protection plus Plant Health Benefits¹.

- Four modes of effective action to deliver broad-spectrum protection against key seed- and soil-borne diseases, including three active ingredients targeting fusarium
- The addition of Xemium® delivers unique mobility and translocation characteristics for consistent and continuous disease protection²
- **Plant Health Benefits** offer greater germination for improved emergence and enhanced seedling vigour, including better management of minor stress²
- Formulated for reduced viscosity and optimized usability

**BOLDLY
GROW.**

Increased seedling vigour

Increased seedling vigour with Insure Cereal FX4

Source: BASF AgSolutions® Performance Trial, Cut Knife, SK, 2021

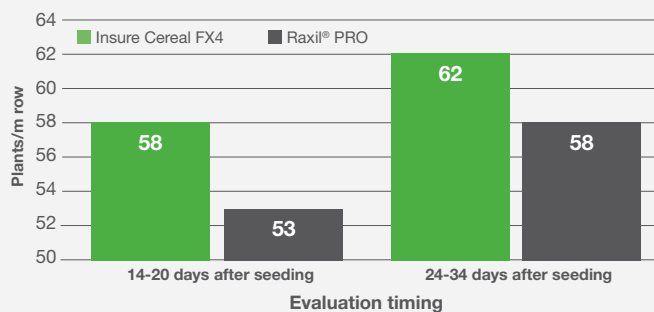

Increased seedling vigour in wheat, 34 days after seeding

Source: BASF Research Authorization Trials, Dauphin, MB, 2018

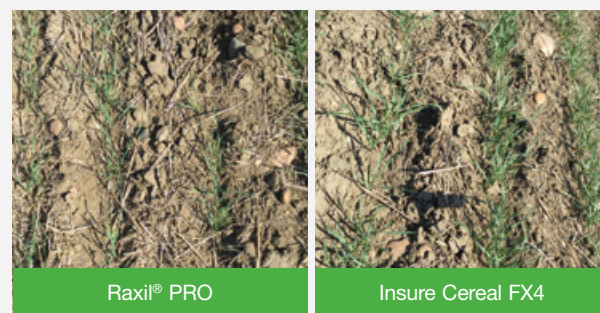

Improved emergence

Average plant stand count

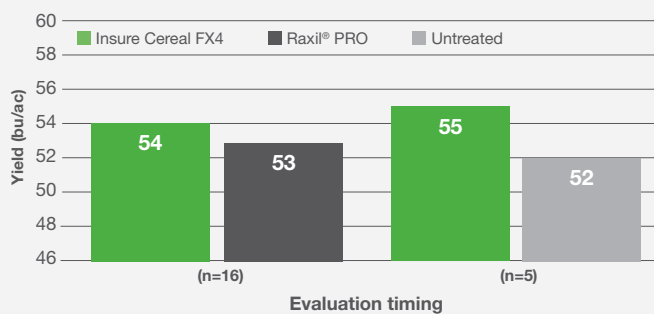

Source: BASF AgSolutions Performance Trials, Western Canada, 2018-2021, n=21

Increased emergence in wheat, 27 days after seeding

Source: BASF Research Authorization Trials, Hodgeville, SK, 2018

Insure Cereal FX4 yield performance

Source: BASF AgSolutions Performance Trials, Western Canada, 2017-2021
