

Boost your cereal disease protection with Sphaerex.

Higher quality. Bigger yields. Better profits.

Protect your high value cereals with the strength of Sphaerex® fungicide. Sphaerex delivers improved protection from a range of cereal diseases, with increased efficacy on fusarium head blight (FHB). Sphaerex manages leaf diseases in barley, oats, rye, triticale and wheat. Compare the performance of Sphaerex with its competitors.

C = Control (80-100%), S = Suppression (60-79%)

*One case treats 40 acres at the FHB rate.

**Source: BASF Small Plot Trials, n=16, 2020.

† For optimal results on fusarium head blight and flag-leaf disease management, BASF recommends using Sphaerex at the 80 acre/case rate. For suppression of ergot, the 80 acre/case rate is required.

Always read and follow label directions.
