

# Growing great lentils starts here.

2026 **Clearfield** lentil Seed Quality Offer.

# Plant more confidence.

A great lentil crop begins with healthy seed, so help growers get a great start in 2026. BASF covers the cost of seed quality testing for growers registered with the 2026 **Clearfield**® lentil Seed Quality Offer. It's a simple way to be sure they are planting the best quality lentil seed. Growers submit any one **Clearfield** lentil variety to a participating seed lab, and receive a complimentary seed quality and disease test package<sup>1</sup> and **Clearfield-Confirm**® test.

**Clearfield** lentils are available for every major market class, with some of the most popular varieties listed here.

Red Lentils	
Extra Small Red	CDC Imp, CDC Impala, CDC Imperial
Small Red	CDC Maxim, CDC Dazil, CDC Imax, CDC Impact, CDC Impulse, CDC Nimble, CDC Proclaim
Large Red	CDC KR-2, CDC Monarch
Spanish Brown	CDC SB-3, CDC SB-4

Green Lentils	
Small Green	CDC Invincible
Medium Green	CDC Impress, CDC Imigreen
Large Green	CDC Lima, CDC Impower
French Green	CDC Peridot
Green cotyledon	CDC QG-3, CDC QG-4

<sup>1</sup> See terms and conditions for more information.

## Complimentary seed testing.

To give growers more confidence in the quality of their **Clearfield** lentil seed, we're covering the cost of testing for growers registered for the 2026 **Clearfield** lentil Seed Quality Offer. Sample testing includes germination, vigour, diseases and thousand kernel weight (TKW). We also conduct a **Clearfield-Confirm** test to ensure the seed sample still contains the **Clearfield** trait.

# Grow a better future.

Since CDC Impact and CDC Imperial were first registered in 2006 there have been a total of 30 **Clearfield** lentil varieties registered for use in Western Canada. This history of development work at the Crop Development Center has resulted in **Clearfield** lentils being the first choice for the majority of lentil growers. Our seed partners continue to be dedicated to the integrity of the **Clearfield** trait and understand the ongoing demand for **Clearfield** lentil varieties to tackle the challenges of production. Similarly, BASF remains committed to the future of **Clearfield** lentils. Through strategic agronomic initiatives like Advanced Weed Control and ongoing investment in innovative crop protection solutions, we're helping support lentils as a resilient and profitable choice for Canadian growers into the future. When you purchase Certified **Clearfield** lentil seed or have your farm saved seed **Clearfield**-Confirm tested and use BASF **Clearfield** herbicides on your lentils you support the ongoing innovation in lentils. Plus, you get the benefits of the BASF Ag Reward Program and helpful product support.

## 3 simple steps to the **Clearfield** lentil Seed Quality Offer.

### **Sign.**

Growers must complete, sign and return the attached consent form to BASF (by email or mail) including consent to privacy. Limit of one (1) form per grower.

### **Sample.**

Take a 1 kg representative clean seed sample from one **Clearfield** lentil variety. Place it in a resealable bag and include a copy of the signed consent form.

### **Send.**

Mail or drop off the sample at one of the participating seed labs listed on the form.

### **No seed sample on hand?**

Send in your consent form now and send in the seed sample later.

For more information, visit [agsolutions.ca/clearfieldlentiloffer](https://agsolutions.ca/clearfieldlentiloffer), speak to your BASF Territory Manager or call **AgSolutions®** Customer Care at 1-877-371-BASF (2273).

# The **Clearfield** Lentil Seed Quality Offer Consent Form

With the **Clearfield**® Lentil Seed Quality Offer, you can test your seed for **Clearfield-Confirm**®, as well as germination, vigour, disease (Ascochyta, Anthracnose, Botrytis and Sclerotinia) and thousand kernel weight (TKW). Simply fill out the form below and include a copy with your seed sample AND send via the submission information. All fields must be completed to qualify for the free offer. Uncompleted fields will result in charges for the **Clearfield** Lentil Seed Quality Offer.

## STEP 1: Grower and seed information.

Complete the form below and agree to the Offer Terms and Privacy Consent to qualify.

Grower Full Name \_\_\_\_\_

Farm Name (if applicable) \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_ Province \_\_\_\_\_ Postal Code \_\_\_\_\_

Phone \_\_\_\_\_ Email/Fax \_\_\_\_\_

Variety\* \_\_\_\_\_

**Clearfield** lentil seeded acres 2025: \_\_\_\_\_ **Clearfield** lentil intentions for 2026\*: \_\_\_\_\_

## STEP 2: Preferred seed lab.

Please send a 1 kg sample of your **Clearfield** lentil seed variety to a participating lab from the list below.

- ☐ **20/20 Seed Labs Inc.** | (1-877-420-2099)  
507-11th Avenue, Nisku, AB T9E 7N5
- ☐ **20/20 Seed Labs Inc.** | (1-866-540-7333)  
3489 Pembina Hwy, Winnipeg, MB R3V 1A4
- ☐ **SGS Canada Inc.** | (1-800-952-5407)  
Unit 310, 280 Portage Close, Sherwood Park, AB T8H 2R6
- ☐ **Discovery Seed Labs** | (306-249-4484)  
450 Melville Street, Saskatoon, SK S7J 4M2
- ☐ **Lendon Seed Lab** | (306-585-7333)  
147 Hodsman Road, Regina, SK S4N 5W5
- ☐ **Prairie Diagnostic Seed Lab** | (306-842-7375)  
140 1st Street, Weyburn, SK S4H 0T2
- ☐ **Seed Check Technologies Inc.** | (780-980-8324)  
Unit 101, 5906-50 Street, Leduc, AB T9E 0R6
